S CURES ALL SKIN DISEASES

 ╶┼┼┼┼┼┼┼┼┼┼┼┼

Health in its magnificence appeals to every one, and especially is this true of a clear skin, free from eruptions and disease. We instinctively realize that back of this desirable condition pure, rich blood is flowing through the system, furnishing nutriment to all the tissues.

This perfect condition of the skin exists as long as the blood is normal, but when it becomes contaminated with humors and acids its supply of nutritive properties is greatly lessened, and it becomes a sharp, acrid fluid which diseases instead of preserving the natural health and texture of the skin. Then come Skin Diseases; the character of the eruption depending upon the nature of the humor with which the blood is infected. If there is an excess of acid in the circulation

the trouble is characterized by itching and burning eruptions. Other impurities produce watery blisters, rashes, etc., commonly known as Eczema, Tetter or Salt Rheum, while still other morbid matters in the circulation cause Acne, pimples and like troubles. Dear Sirs: My body broke out with It is right and proper to get a rash or eruption which, in spite of all efforts to cure, continued to get what relief one may from the worse. The itching, especially at application of washes, salves, night, was simply terrible; it would etc., but such treatment should almost disappear at times, only to re-turn worse than ever. I had tried not be depended upon alone to

The fall hats seem to promise greater exaggeration as to height of crown and narrowness of brim. This is especially so when feathers are used as trimming, they being placed so as to mount to a great height. The pretty mourning hat in the picture is shaped on these lines, but is modest and becoming. The shape is covered entirely by folds of heavy black silk, each fold being trimmed a half inch from the edge by a narrow band of crepe. The large upstanding loops on the left are also of silk with the crepe trimming bands.
